# Corporate Partnerships Opportunities

Transforming Lives Through Music

Discover how your business can empower children and young people with disabilities through the power of music.

# Our Vision

We believe every child, regardless of disability, should be able to experience the joy, creativity and connection that music brings.

Since 2003, we've been supporting thousands of children and young people aged 5–25 to find their voice and build confidence through tailored music education.

Our programmes empower children facing disability, economic hardship and isolation by placing inclusive, high-quality music at the heart of their development.

## Why Partner With Us?

Your partnership will help us reach more young people, provide more lessons, and train more music leaders. It will also:

- Show your commitment to inclusion and wellbeing
- Offer meaningful ways for your team to connect and give back
- Align with your CSR and ESG goals

Together, we can create a future where music is accessible to every child.

## Our Reach

- Over 1,400 children supported each year
- Programmes run across London, the Midlands and the North of England
- Delivered by a team of 50+ professional musicians, many with lived experience of disability
- Activities include:
  - Weekly choirs in special schools
  - Individual instrumental tuition
  - Deaf music education
  - Work placements and performance opportunities

“The power of music helped two profoundly Deaf asylum-seeking twins use expressive language for the first time. Seeing them lead a class was unforgettable.

“  
Eloise Garland,  
Deaf musician and educator
